

Amendments to the Specification:

Please add the following new paragraph beginning on a new page after page 11:

ABSTRACT OF THE DISCLOSURE

A composition for an infant formula which includes casein protein and whey protein; a method of producing the composition; use of the composition in the manufacture of a medicament or nutritional product for addressing malnutrition; and a method of addressing malnutrition which includes administering an effective amount of the composition are provided. The composition includes protein, free arginine, tryptophan and histidine, a lipid source and a carbohydrate source. In addition, the whey protein is sweet whey protein from which caseino-glyco-macropptide has been removed.
